Baseball Practice Tomorrow Night

At a meeting of the local baseball club last Tuesday night, W. E. Henderson was appointed manager for the coming season, and M. B. Huffman assistant manager. A. Morency was appointed local representative to the Crows' Nest Past League executive.

The matter of bases, balls, etc., was discussed very thoroughly and Mr. Morency was instructed to get prices on rubber bases and home plate.

The meeting also discussed the advisability of affiliating with the Provincial Baseball organization and were in favor of joining them, providing the other teams in this League do likewise.

There was a little discussion on the practice nights and it was decided to approach the Football Club and arrange Monday and Thursday nights for the footballers, and

Tuesday and Friday for the baseball team.

The diamond was marked out Wednesday night and all is now in readiness with the exception of bases.

First practice tomorrow, (Friday) evening at 8:30 sharp. Be sure and turn out and limber up.

Home Bank of Canada Opening Branch Here

The Home Bank of Canada will open a branch in Blairmore shortly in that part of the Cosmopolitan now used as a soda drink bar.

With an other bank coming to Blairmore, it can mark another step towards being a bigger and better town. And that's just what we all want, is to see our town grow and grow, and grow, until we have to enlarge the limits.

Railroad rails last for about 10 years.

MAY HAVE S. S. CAMPS FOR PASS BOYS AND GIRLS

A meeting was held in the Union church this afternoon with regards to forming a Boys' and Girls' Camp for the Sunday School Classes of Bellevue, Hillcrest, Blairmore, and Coleman. Those in attendance were: Mr. Fergie, boys' work secretary for Alberta; Rev. and Mrs. Newman of Hillcrest; Rev. Allan of Coleman; Rev. and Mrs. Young, and Mrs. Henderson of Blairmore; and Bellevue, shame not a soul.

It was not definitely decided whether to have these camps, or not as so many have to be taken into consideration and there is also a great need of leaders to carry the enterprise through. It is quite probable though, that the camp for girls will be formed and it will be announced later whether the boys are to have a camp or not.

There is certainly enough Sunday school children in the four towns to make up very large camps and perhaps we think it is an excellent idea, and we also quite satisfied that others take the same view of the matter.

The Hillcrest Football Club had the Enterprise print 200 Membership Cards this week in the form of a schedule of their games. They also included the list of officers on the card and they have fourteen games, one a week, from April 30 to August 7.

ALBERTA'S GREATEST MARKET PLACE

There is a busy market place in Alberta used by 100,000 people and thru the medium of this big exchange, more trading, buying and selling, etc., is done every day than by any other means. Where is it? In the classified section of The Calgary Daily Herald, Alberta's greatest daily newspaper, and the fourth largest classified medium in the Dominion. People who keep in touch with this great mart save time and money. If you are not already a subscriber, send your order today to J. H. Farmer, Blairmore; J. Wilson, Frank; or J. J. Loftus, Hillcrest.

HELPLEFULNESS

There is opportunity for daily helpfulness to others, whatever one's position or station. Helpfulness is a boomerang; while a grateful attitude to others, it comes back and results helpfully on the one who bestows it.

No one should be above receiving help or above bestowing it. The world is big, life is intricate, and no single individual can know or experience everything. Sharing through helpfulness, then, is something more than individual service.

Helpfulness can assume many forms, varying with circumstances and environment. It may be a kindly word, an hour's time, a bit of planning, material assistance, or just a smiling greeting. It is a splendid game of give and take, to be played frequently with those around us. Whether helpful service be rendered in domestic, social or business relationships, spontaneity adds to its effectiveness and reflects a generous impulse. And how much better it is, this spirit of helpfulness, than that selfish exclusiveness with which some people habitually envelop themselves.

IMPOSSIBLE

A man refers to his automobile as "she," probably because it is something he can't reason with.—Syracuse Herald.

"Why, Teddy! How did you catch that chicken?"
"Oh, I let it run and it ran till his gas gave out."—Motor Life.

Bobby's dog was limping along on three feet. "Look, daddy, Tige's not hitting on all four cylinders."—Motor Life.

INDICTMENT OF CEMENT COMPANIES

News of indictment under the anti-trust law of a large number of cement corporations and individual officers, does not come as a surprise after the disclosures of the Lockwood committee.

The manufacturers are, of course, entitled to their day in court. If they have been guilty of the actions they are charged with penalties provided by the law should be imposed without favor, as they no doubt will be. But even on the assumption that there has been restraint of trade and monopoly, partial at least, it would be a mistake to suppose that such activity is entirely responsible for the high prices of the recent past or to conclude that by these practices the manufacturers would be able to control such a level of prices indefinitely.

Conditions of supply and demand are fundamentally responsible for the major part of the price increase, and indeed in all likelihood made feasible. If such is a fact, existing the actual formation of territorial, price and other agreements. Furthermore, entirely apart from legal aspects, this same economic law is exceedingly likely to bring its own retribution to those who take advantage of such a situation unduly to boost prices, whether by means of price agreement or otherwise. The cement industry, as well as other lines is already paying in depressed markets and slackening business for policies of yesterday. —New York Journal of Commerce.

A LONE WOLF'S HOWL

Old Harpans Jake from the head of the Lake.

With hair on my breast—that's me, I've pawed this earth from the day of my birth.

With a spirit wild and free.

I've seen the West at its worst and best;

I've swallowed my daily snort;

My tongue is dry with the old rote.

At eight and a half a quart.

What would they do—that roaring crew?

Them wolves that I used to know.

If they'd hear the news of the price of booze.

In this land where the joy vines grow.

I reckon they'd shoot dum galloot.

Who threaten to take their eye.

But they won't be here my son to cheer.

With a mere to award dry.

Old Gettis Jack and Dark Lake Bill, Pete Smith and Alkali Brown;

We was sure sure crowd if you speak it loud.

When we hit the trail to town.

It was booze or bust while we spent our durt.

With the limit the star-specked sky;

But there'll be no plays like we had them days.

With old Pincher Creek bone dry.

There on their side of The Great

My yards of the days of yore;

And Jim's forlorn, to weep and mourn.

With a heart that is sad and sore,

I'm old and broke and my gums in a leak.

So what can I do but cry,

As I sit and think of the old-time drink.

With Montana nine-tenths dry.

Dig me a grave where the willows wave.

At the rim of the lonesome swamp,

Where the larks creep and the tree toads creep.

And the tuncful bullfrogs romp.

Throw me and my jug that I used to hug.

In the hole—I'm a has been sport,

For I'm booked to lose with the price of booze.

At eight and a half a quart.

Apologies to F. N. McEwen.

Apologies to A. C. Weaver and J. W. McKenzie.

Canada Needs More People

In the development of the natural resources of Canada, and the resultant increase in traffic for the transportation systems of the Dominion, it is to be found the only permanent solution of the problem now presented by the annually recurring, and increasing, deficits in the operation of the National Railways. This was the view expressed in this column last week, and further study of the question only serves to confirm and strengthen that opinion.

It is gratifying to note, too, that the soundness of this suggested solution is being urged more and more upon the Federal Government and the people of Canada. Such influential men as Hon. T. A. Crerar, President Beatty of the C.P.R., Sir Frederick Williams Taylor, general manager of the Bank of Montreal, and other leaders in Canadian affairs, support this view.

If in the development of our natural resources lies the solution of our railway problems—and if increased business will solve the railway problem it will likewise assist to solve other national problems of taxation and economics—then the question presents itself as to which of our many resources attention should first be turned as best calculated to quickly respond to well directed Government and individual effort. Also, in the light of existing world conditions, which of our resources will make the strongest appeal to the people of the world? Again, which of our resources, if more fully developed, will react upon and operate to bring about the development of other resources?

There can be no two opinions as to the richest, the most important, the basic natural resources of this country. It is to be found in the agricultural lands spread over the Dominion from the Atlantic to the Pacific. Valuable as are the mines, the forests, the fisheries of Canada, and necessary as they are to the upbuilding of a strong and self-contained nation, they individually and collectively take second place to agriculture.

The first essential to the development of the agricultural resources of Canada is fertile agricultural lands in population. Without people the lands must remain idle and unproductive. Lacking workers on the land, crops cannot be produced. Unless our unsettled lands are peopled with workers who will produce, and through their production create traffic for the railways, all the economies in the world will not result in making those railways profitable.

Furthermore, it is only through the placing of people on the land that the necessary demand will be created for manufactured products of all kinds, the demand for which will, in turn, force the development of our mineral and timber resources, and thereby create still further traffic for the railways and provide employment for an ever increasing body of artisans and skilled workers in shop and factory.

Another million of people settled on farms in Canada and producing wealth from the soil would result in such a volume of produce for export in the shape of grains and livestock that many of the now unprofitable lines of railway would become paying propositions, because for every dollar's worth of produce shipped out, the people on the land would purchase a dollar's worth of goods to be shipped in.

Yet there are people in this country who are advocating the adoption of the most stringent regulations to prevent immigration into Canada. Nothing could be more shortsighted. All will agree that the bars should be kept up against the mentally, morally and physically deficient. Canada does not want such as these who are not producers, but who become a menace and burden to the state. But Canada does need and must have a large increase in immigration of the right type of people if it is to develop and prosper.

The most prosperous period in Canadian history was during those years when immigration was flowing into this country at an unprecedented rate and the vacant lands of the Dominion were being brought under cultivation. Those were the years when, with the incoming of these pioneer settlers, our cities, towns and villages grew apace; our railways were busy and constructing new branch lines as feeders; our manufacturers were busy constructing larger factory buildings and employing many more workers, and activity was manifest in the development of natural resources of all kinds.

With the falling off in immigration, and with large national obligations incurred for transportation and other services which were provided to meet the expected continuance of the influx of new settlers, the slump came. Then the war put a stop to all immigration for over five years, while at the same time it took its toll of millions of human lives.

The opportunity again presents itself to secure a large volume of immigration to Canada, and immigrants of the right type, too. Sound national policy demands that full advantage be taken of the opportunity. If there ever was a time when Canada needed new people to assist in the development of our great resources, it is now. Immigration should be encouraged, and there should be no trouble in selecting and eliminating the small percentage of undesirable at the port of embarkation. The great majority of immigrants come to Canada to better their condition, and have a fairly clear idea in mind of what they are going to do. They should be encouraged to come, and a helping hand and all reasonable assistance and a warm welcome extended on their arrival.

Picture Film 16 Miles Long

A motion picture film, 15 miles in length, and which requires nearly 24 hours for continuous exhibition, has been completed in Italy, showing the principal incidents in the Bible from the Creation until the birth of Christ.

Gold Exported From Yukon Territory

During last year there were mined and exported from the Yukon Territory 110,693 ounces of gold. The cost of production has increased enormously and when the cost is reduced, large quantities of gold-bearing gravel will be washed.

Insatiable Birds

There Wasn't Much Left for the Shipper After the "Ducks" Got Through With It.

A new story is going around the financial district about an old southern negro who was asked by the proprietor of a store how he happened to need credit when he'd such a good cotton crop.

"De ducks got 'bout all dat cotton, sah," was the mournful reply.

"What do you mean de ducks got it?"

"Well, you see," explained the old man, "I sent dat cotton up to Memphis an' dey deducts de freight, an' dey deducts de storage charges, an' dey deducts de commission, an' dey deducts de taxes—yes, sah, de ducks got 'bout all dat cotton an' dat's why I'm here."—Boston Transcript.

THANKFUL MOTHERS

Once a mother has little Baby's Own Tablets for her little one she would use nothing else. The Tablets give such results that the mother has nothing but words of praise and thankfulness for them. Among the thousands of mothers throughout Canada who praise the Tablets is Mrs. David A. Anderson, New Glasgow, N.S., who writes: "I have used Baby's Own Tablets for my children and from my experience I would not be without them. I would urge every other mother to keep a box of the Tablets in the house. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach; drive out constipation and indigestion; break up colds and simple fevers; make teething easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Won't Be Observed

A bill to abolish tipping, gratuities and perquisites may be introduced in Parliament. The idea of such a measure will receive applause from a lot of people who will disregard it. There is ground for the contention that tips are extortions that add to the cost of what has been well paid for. They are few, however, who will venture to live up to their theories. The average man is a coward when confronted by a custom.—Montreal Gazette.

TOBACCO HEART

Every Smoker Read This

Tobacco does not seem to affect all alike. Many men enjoy their smoke, live to a good old age, and apparently suffer no ill-effects from the use of the weed.

There are others, though, on whose heart and nervous system tobacco produces the most serious results. It causes palpitation, pain in the heart, and irregularity of its beat, makes the hands tremble, seizes the nerves on edge, and causes shortness of breath and loss of sleep.

To counteract this demoralizing influence on the heart and nerves, there is no remedy to equal Milburn's Heart and Nerve Pills.

They make the heart beat strong and steady, restore tone and vigor to the nerves, and remove all the evil results caused by the tobacco. Mr. D. McKillop, Coxsack, N.S., writes: "I was using too much tobacco, and got so I could not sleep at night, my hands used to tremble something awful, and I suffered terrible from pains in my heart. I told a friend about it, and he advised me to get your Milburn's Heart and Nerve Pills. I took two boxes and they gave me great satisfaction." Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Coal has been found valueless in the best porcelain furnaces, the fumes discoloring the ware.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Exterminator is an excellent medicine to destroy worms.

A Mountain Wilderness

Jasper Park is Largest Big Game Sanctuary in World.

Jasper Park, east of the Yellowstone Pass through the Rocky Mountains, traversed by the Canadian National Railways, has an area of 4,400 square miles. It is, therefore, a little more than twice the size of the province of Prince Edward Island.

Jasper Park is an immense mountain wilderness, partly unexplored. It contains unclimbed mountain peaks, glaciers, snowfields, canyons and many lakes; also Mount Robson, the highest known peak in Canada. It is the largest big game sanctuary in the world.

It has been estimated that one Iceland waterfowl could be made to yield 60,000 horse-power and another 50,000.

All things wait for those who come after them.

Milburn's Laxative For Babies, Etc.

Good Profit in Poultry

Alberta Farmer Who Kept Record Shows that Money Can be Made Out of this Side Line.

An example of the profits that may be made with poultry on western prairie farms is given by W. E. Decker, who farms near Bassano, Alta. On January 1st, 1920, he had on his farm two hundred and fifty-eight White Leghorn hens. From these he obtained and sold eggs to the value of \$66.35. They used and set eggs to the value of \$283.90. They also sold \$105.79 worth of chickens and the value of the poultry they used at table was \$14.10. This makes a total of \$1,060.14. Against this feed to the value of \$73.99 was bought, and about \$200 of grain raised on the farm was given to the hens. The net profit, therefore, amounted to \$786.15—not a bad return from a side line.

The flower of the Mohammedan religion is the violet.

Canada Not Trading With Belgium

Has Lost Opportunity Says Agent General of Quebec.

That Canada had done absolutely nothing toward the industrial reconstruction of Belgium and so lost the opportunity to capture the Belgian market, was the statement of Godfrey Langlois, agent general of the province of Quebec in that country, speaking before the Chambre de Commerce. Mr. Langlois declared that out of the 300 United States and English agents who gathered in Brussels after the armistice there was not a single Canadian. He had tried to get a Canadian bank to establish a branch there, but his efforts were useless.

He pointed out that New York was selling Canadian goods in Belgium and making their big profits on them. Until he had taken steps to remedy it even the Canadian dollar was not listed on the Brussels stock exchange.

Cardston Irrigation Project

Alberta Government Will Irrigate About Fifteen Thousand Acres.

The Alberta Government consulting engineer, D. W. Hays, has just completed an examination on behalf of the government of the United Irrigation District, which has been formed for the purpose of irrigating about fifteen thousand acres of first-class farm land near Cardston in Southern Alberta.

Mr. Hays says the project is quite feasible and is, in fact, the simplest proposition he has ever met with. There are no difficulties to surmount and the construction work can be carried out without any large or expensive machinery. It is expected that work on this project will be begun this summer.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

City and Rural Population

The New York Tribune is authority for the statement that in the United States there are 51,318,082 persons living in cities, as against 51,390,739 outside them.—Montreal Herald.

For years I have never considered my stock of household remedies complete unless a bottle of Milburn's Liniment was included. For my bronchitis, sprains, rheumatism or chilblains it excels, and I know of no better remedy for a severe cold in the head, or that will give more immediate relief, than to inhale from the bottle through the nasal organ. And as to my supply of veterinary remedies it is essential, as it is in very many instances, proven its value. A recent experience in rescuing a valuable cow under has again demonstrated its great worth and prompts me to recommend it to the highest terms to all who have a herd of cows, large or small. I think I'm safe in saying among all the paste medicines there is none that covers as large a field of usefulness as does Milburn's Liniment. A real trusted good for man or beast. CHAS. K. HOLBORN, Chicago, Ill., N.S.

Effective Plan to Destroy Hoppers

Flame Throwers in France Meet Success in Exterminating Locusts.

How the flame thrower troops of the French army provided large quantities of freshly roasted meat for the poultry of the country and at the same time added the fields of crop-destroying grasshoppers and locusts is told by Dr. L. Howard, chief entomologist of the U.S. Department of Agriculture, who recently inspected insect-fighting methods of that country. The hoppers were swept into great heaps by living circles of soldiers and then exterminated by the flame.

ADVERTISING A Modern Necessity

ADVERTISING is today one of the greatest forces at work in our everyday life. Governments use it to announce new policies, to raise money and armies, and to mould public opinion. It enables you to judge values, to buy to better advantage. It influences you in what you wear and eat.

THE CALGARY HERALD is Alberta's largest and best known advertising medium. It carries all important announcements—changes in railroad schedules, legal notices, the big city stores' bargains and special sales, theatrical, amusement and sporting events, births and deaths, a directory of Alberta's professional firms, auction sales, new legislation, first word of the new fashions etc., you will find them all in Alberta's Greatest Daily.

THE HERALD'S Classified Advertising pages represent the greatest market place in the west. Here more buyers and sellers meet daily than through any other medium. It's here that thousands turn when they want something—and they save time and money.

In addition to giving you a bigger, better paper and more and more news, The Herald carries all the advertising that is worth while.

THE EDITOR AND MONEY

It has been said that it takes money to run a newspaper. What an exaggeration! What a whopper! It has been employed a thousand times it is a case of just fancy. It doesn't take money to run a newspaper—it can run without money. It is a charitable first step on a long road, a highway robber. The newspaper is a child of the air, a creature of a dream. It can go on and on when another concern would fold in the hands of a receiver and would up with yelping in the window. It takes wind to run a newspaper; it takes gall to run a newspaper; it takes scintillating sarcasm, imagination and hair a dozen white shirts and a railroad pass to run a newspaper. But money—wherever needed money in conducting a newspaper? Kind words are the medium of exchange that do the business for the editor—kind words and church society tickets. When you see an editor with money, watch him—he'll be paying bills and disgracing his profession. Never give money to an editor. Make him trade it out. He likes to swap corned beef, cabbage, eyewater, corn salve, old clothes and scrap iron. Don't let the future in him. When you die, after having stood around for years and sneered at the editor and his Jim Crow paper, be sure and have your wife send in for three extra copies by one of your sleeping children, and when the generous and touching notice about you forewarn her not to neglect to send fifteen copies to the publisher to pay for the editor's next shave. It would overwhelm him.

Money is a corrupt thing. The editor knows it, and what he wants is your heartfelt thanks; then he can thank the printers, and they can thank the grocers. Send your job work to some city office and then come back and ask us for three puff every time the baby cuts a tooth. Get your lodge letterheads and stationery printed, out of town, and then flood the editor with resolutions and cards of thanks. They make spicy reading and when you picket it up with these glowing and vivid monetary articles you are proud of your little paper. But money—scorn the filthy thing. Don't let the future in the editor know anything about it. Keep it for the sordid tradesmen who charge for their wares. The editor gives his bounty away, and the Lord loves a cheerful giver. He'll take care of the editor, so don't worry about him. He has a charter from the state to act as door mat to the community. He'll get the paper out somehow and stand for you when you run for office and lie about your pigmented daughter's wedding, and blow about your big-footed sons when they get a four dollar per week job, and weep over your shrivelled soul when it is released from your gasping body, and smile at your giddy wife's second marriage. He'll get along. The Lord knows how—but the editor will get there somehow.

In resigning his seat in the House, Sir Thomas White has solved the question as to whether he was eligible to hold a seat while acting as arbitrator under the Grand Trunk agreement.

What They Did In The War

LONDON, April 5. — The handiest answer yet given to the embarrassing question: "What did you do in the Great War, Diddy?" is contained in "Burke's Handbook to the Most Excellent Order of the British Empire". Altogether the Order has a total membership of 25,419.

There you will find Sir Basil Zaharoff, who planned great enterprises as freely as an ordinary man will plant teeth.

A few pages back you will find Inspector Venenay, of Scotland Yard who "investigated explosions on land and sea," and arrested numerous felons. There you will find George Robert, whose services are modestly abbreviated. An interesting entry is that of Celia Violet Bosvine Macdonald of the Isles. Under the heading "War Work" we read: "Teaching a class of policemen Morse and semaphore signalling."

You can read there about the man who got the O. B. E. for controlling all eleven in the country, and the Colonel who got the O. B. E. for controlling all the hydrogen.

Conservation of Soil Fertility and Soil Fibre

Of unusual interest to the farmers of Western Canada is the publication relating to Conservation of Soil Fibre and Fertility just issued by the Commission of Conservation. This pamphlet contains a series of papers and discussions by leading authorities on the problems confronting the prairie farmer. Particular attention is paid to the control of soil salting, the retention of moisture and to cropping systems for drought areas.

The purpose of this publication is to place before the western farmer the results of the experimental work conducted by the Dominion and Provincial Departments of Agriculture, and by the Agricultural Colleges, in their efforts to determine the cropping systems and methods of cultivation most suitable for the various prairie areas, particularly those which have suffered most severely from soil drifting and from drought.

Copies of this pamphlet may be obtained free on application to the Commission of Conservation.

He Was Puzzled

Higgins got home one night to learn that his wife had given birth to triplets—three healthy, bouncing boys. Higgins, ever ready to do the office work, went to the office next morning and recounted the rare and wonderful thing which had befallen him. The chief clerk felicitated him heartily, and the next day Higgins was sent for.

He hurried to the office again, and the entire firm assembled there. A huge silver cup stood on the mantel, and in this trophy, in an eloquent speech, the chief presented to him in recognition of the triple blessing which he had bestowed upon his country.

Higgins took the cup in his hand bowed respectfully and said:

"Excuse me, but is this cup—mine now, or do I have to win it three years in succession?"

One suggestion to remedy the smoke nuisance and a means of overcoming the loss of by-products of raw bituminous coal, is contained in the latest bulletin of the Conservation Commission. It quotes Joseph E. Progne as saying that the waste occasioned by the firing of raw bituminous coal in the United States, including the loss of by-products and the damage by smoke, might be represented by an assessment of \$150 on every family. The suggestion is the establishment of central coking plants near cities. The value of benzol, tar, ammonia and gas lost through the burning of raw coal is enormous. Coke is said to be equal to anthracite coal and holds heat as well, while its smokeless renders it equal to bituminous coal and requires no special application.

Batter up!

Ontario members voted themselves increases amounting to \$67.00.

Wild flowers grow in profusion in the Canadian Rockies. Mrs. Henshaw in her book on the subject refers to 400 different species.

The Edmonton board of trade says that if eastern wholesalers want the business of the west, they should build out here.

Successful Sale of Work

The sale of home cooking, candy, groceries, plants, tea, etc., held by the Anglican church on Tuesday was very successful, a goodly sum being realized. The masquerade dance held in the evening had a good attendance and all enjoyed themselves thoroughly. Prizes were carried off by the following:—Best dressed lady, Miss Ruth Pearson; Best dressed gent, Mr. G. Ross; Comic lady, Miss Lillian Evans; Comic gent, Mr. T. Thibault.

The cake, cushion, etc., were not ruffled at the dance as there were not enough of the tickets for same disposed of. It will be held in the near future.

Cowley Happenings

(Continued from last issue)

April 14th—A large crowd gathered in the hall on Friday night to attend the third time dance, given by the Cowley Baseball team. Many comical and curious costumes were there. Of the ladies, Mrs. Littleton, who wore a paper dress, excelled. A few of the men were fined for being a little fastidious in appearance. Excellent music was furnished by Mrs. Gray and Mrs. Morrow. A tasty lunch was served at midnight, which was located by the ladies. We understand that some forty odd dollars was realized.

Joe Wilson left on Tuesday for Armstrong, B. C.

Mr. and Mrs. Will Tustian have moved to their ranch south of town.

Mr. and Mrs. Russell have moved to Lundbreck to reside.

A junior baseball team has been organized here.

Mrs. Moses Thibert is visiting in Ottawa at present. She intends spending several weeks here.

Mrs. Nels Nelson has gone to Penttison, B. C., for an extended visit.

Mr. Freeman, of Blairmore, is the guest of Mr. and Mrs. Harry Hannan.

George Cruickshank, of Hillcrest, was a business visitor here this week.

Miss Mabel Edgett has accepted a position as stenographer in a Lethbridge office.

Mrs. W. T. Hargrove, who spent a few days here, has returned to her home at Monarch.

Mr. Morris, of Calgary, was a business visitor here for a few days recently.

Mr. Chandler, who intends moving to Grand Forks, B. C., shortly, held a sale here on Saturday of his farming implements.

Mrs. D. R. Melvor gave a party at her residence on Friday afternoon for the Sunday School children. The youngsters enjoyed themselves immensely.

The new bridge over the Middle Fork, which has been under construction for some weeks, is now finished and ready for traffic. This will be appreciated very much, as the river is now rising.

Quite a crowd of the natives gathered in the hall on Monday night for the purpose of giving a dance in honor of Joe Wilson, who is leaving for Armstrong, B. C. The music was furnished by local talent. The ladies spread themselves a bit by preparing an extra dainty and delicious lunch. The cakes and sandwiches were as nice as could be made and home-made candy was passed around several times through the crowd. Needless to say, everybody had a good time.

Cowley Happenings

Mrs. Leigh, of Hillcrest, is a visitor in town.

Mr. and Mrs. Coghill drove in from the Ross ranch on Sunday.

People are beginning to plant their early garden stuff here now.

Mr. Donald Thompson, of Pincher Creek, was a Cowley visitor on Tuesday.

Mr. Trist, of Lundbreck, was a business visitor to Cowley Monday.

Mr. and Mrs. James Bird and family and Mrs. Olin left on Tuesday last for Grand Forks, B. C., where they will make their home.

The whist enthusiasts had another "go" at it last Tuesday night. The prizes were won by Dick Alexander and Mrs. Bouthiller.

Francis Blake, a well known old timer, who since his return from the front, has resided in the Edmonton district, has returned to his old ranch. We understand he intends to stay.

A dance will be held in the hall on Thursday night, April 21st, under the auspices of the Cowley baseball club. A large crowd is expected as the Banff orchestra is supplying the music.

Mrs. Chandler and children visited in Hillcrest for a few days before leaving for Grand Forks, B. C. to join Mr. Chandler. They intend making Grand Forks their future home.

The ladies of the Women's Institute were "at home" on Friday evening last for the purpose of giving to Jas. Bird, Mrs. Olin and Mrs. Chandler a little send off. The evening passed very pleasantly. A dainty and delicious lunch was served.

Pass Couple are Prize Winners

The following is clipped from a recent issue of the Perth, Ontario, Exporter:

"At the big masquerade ball given in aid of the Perth hospital Mr. and Mrs. J. H. Boulton, of Coleman, Alberta, carried off the first prizes. Mr. Boulton, representing an Indian chief, wore a beautiful costume of scarlet and purple, elaborately trimmed, while Mrs. Boulton, as Indian Princess, wore a lovely costume of white buckskin, beautifully trimmed, and looked charming."

Bellevue Happenings

And Steve says: "The trouble with most of those who ask for 'time' is that they do not know the difference between time and eternity."

Forty-four hundred persons committed suicide in Hungary in 1920.

Love of The Wild

— BY —

ARCHIE P. McKISHNIE

Printed by Special Arrangements with The Allen, Toronto, Ont.

(Continued)

"Hello," exclaimed his father, "where've you been?"

"I stayed with Bill Paisley last night," explained Boy. "You know we had Amos Broadbrook locked up at his place. We laid asleep for a few minutes and Amos got away. Somebody outside helped him—his brother Hank likely. Anyway, he's got clean away."

"And where do you suppose he has gone?" asked his father.

"Across the border likely," returned Boy. "We're going after him, sir, and we've got to start right now, 'cause the creek's rising and getting dangerous. In half an hour we can't get across."

Hallibut looked at Big McTavish, then he turned to Boy.

"Do you think he'll go across the line?" he asked.

"Yes."

"Then, let the poor beggar go. I've promised Gloss that I won't prosecute him."

Boy whistled.

"Well—" he commenced, then turned abruptly away.

He was glad, glad, glad. He did not know why, nor care why. He could not bear to think of anything of the bush-world being shut up without a chance of escape. He passed outside and Hallibut followed him.

"Boy," said the big man, "I guess you think me an old fool, don't you?"

He went over and laid his hand affectionately on the young man's arm.

"I guess I'm getting old and rather childish, Boy. I've just received one of God's great gifts, and there is nothing much in my old heart this spring morning but joy—joy I've had to do without for many years. Well, Boy, you know how the old trees of the bush lean when they've lived their full years. You know how they lean and sag. You have seen them do it, haven't you? But sometimes a strong young sapling props them up and they go on living and growing out their leaves—until they're not standing alone."

His arm slipped about Boy's shoulders.

"Boy," he said huskily, "I need a prop. I want to hang on because I've just found real happiness. But I'm sagging, lad; I'm just an old tree."

Boy turned and, grasping the Colonel's hand, he felt a tear splash down and his throat tightened and burned.

"I guess I understand," he said softly. "I've grown deep into all this, and there's always a sapling you can lean on if you care to."

He sprang away down the path toward the log-house and the Colonel watched him, a deep glow in his heart.

From the kitchen came the savory smell of frying bacon and Gloss's happy voice singing an old-fashioned song.

When they all sat down to breakfast, Big McTavish bowed his head and asked God's blessing on his bounty in these words:

"We thank thee for feeding us, O God. We thank thee for thy many mercies, and we thank thee greatly for the sunshine after the darkness."

And Granny from her end of the table added a fervent "Amen."

After breakfasting, the Colonel drew Big McTavish aside and held a whispered conference with him. Then he turned to the "little man," and, holding her hand in both of his, said:

"There is no reward that earth can give you great enough for me and mine, but the great reward awaits you all. I have received a great and wonderful blessing, stroking the brown curls of the tall girl beside him, 'ah, so great a blessing! I am going now, but I will come back soon, very soon, again!'"

He turned, his eyes blinking, and glanced about the room at the others.

"God bless you all!" he said heartily, and strode outside, followed by Big McTavish and Boy.

Coming up the path was a tired, dripping horse, beset by a weary, dripping rider.

"Dick," murmured the Colonel. "Of course, I might have known that he

OLD STANDBY, FOR ACES AND PAINS

Any man or woman who keeps Sloan's handy will tell you that same thing

ESPECIALLY those frequently attacked by rheumatic twinges. A counter-irritant, Sloan's Liniment scatters the congestion and penetrates without rubbing to the affected part, soon relieving the ache and pain. *Keep handy and used everywhere for reducing and finally eliminating the pains and aches of lumbago, neuralgia, muscle strain, joint stiffness, sprains, bruises, and the results of exposure.* You just know from its stimulating, healthy odor that it will do you good! Sloan's Liniment is sold by all druggists—35c, 70c, \$1.40.

(Made in Canada)

Sloan's Liniment

For Rheumatism, Sprains, Bruises, etc.

would come searching for me.

"Why, lad," he called, "you're a bigger man than I, thought you. You're half drowned."

Boy ran forward and helped support the man as he dismounted.

"What's wrong, Dick, lad?" asked Hallibut, catching sight of the new arrival's face.

Dick tumbled in one of his pockets. "Here's a letter, sir. I found it tacked to a tree outside the lawn, sir."

Hallibut took the letter. "It was a dirty, crumpled thing, and scrawled across it were the words, 'Scum! Hallibut!'"

"Listen," said the Colonel, "it's from Amos Broadbrook. This is what he says:—"

"I intended to get even with Smyth an Watson but they had skipped for the state but I have burnt the store an hope you will be pleased I am going away an haint ever comin back dont you put your dorus out me I be in to live state."

"The men exchanged glances. 'Did he do it, Dick?' asked the Colonel.

"Yes, sir, the place was in hushes as I passed."

"But, beneath the—" began Hallibut, but he was abruptly checked by a wet, bedraggled something that hurried itself against him with a low whine of joy.

"Old Zip," cried the Colonel. "You poor, crippled old devil, Zip. Where—"

He staggered back, wiping the wet kiss from his cheek, and tears of laughter stood in his eyes.

"He just wouldn't stay 'ome, sir," stammered Dick. "He chewed three or four times clear through, sir, it s'it 's' you, 's' did, sir."

Then the Colonel said a most extraordinary thing.

"He'd crawl through hell for me, boys, that old dog. And he's come to-day because we've always shared our joys and sorrows together. Come and meet little Gloss, Zip."

CHAPTER XXXI

A Mating Time.

Spring held the world of the Bushwhackers in her soft arms. She awoke the sleeping things with her warm breath. Her light shone on land and marsh and sky. The great trees shivered and stretched their long arms wakefully. The dry rushes along the creek quivered and sang in low whispers, as the blue waters laved their drooping roots. When the sun shined out at intervals the quiet waters of the flats would break here and there, and the flashing body of a pike would leap upward with a mighty flop, and tumbling back, would twist and dart from rush-clump to rush-clump, as if he were a long, motley fish following slowly, one length behind his blue-green dorsal fin standing up above the water like a tiny sail.

Over the wood and marsh matting time, the strong, swift fish claimed first right when the ice still crashed and ground onward and outward. Up against the cold current a school of them would move steadily, plying and mingling again, a fragment detaching itself here where the rat-run offered a haven, a fragment detaching itself there where the quiet water of the flats rested beneath the white, smoky fog.

One was the pike's spawning time. In the early morning sunbeams they would dart and leap and play until the shallow waters of the rushland were white with foam, and there, after the manner of their kind, they would mate and drift and move out into the deeper waters again: in twos and threes and fives, and seek the harbor of spawning-beds among the rushes further inland.

Next came the wee brown song-thrush, tumbling, an animated fragment, from a fleecy snowcloud, dropping from the sky and alighting with low chirp of joy on the bare twig of a baby tree of the woodland. Its sweet, shrill little song, simple and glad, would trail into the quiet places of the wood.

"Gray-bird," it was called, and last to leave in dreary fall, first to come back in springtime, it was Daff Davis's choice of all the birds he loved so well.

(To be continued)

Farmers Come From U.S.

Elmer Woodcock, of Joliet, Illinois is one of the vanguard of the spring's flow of farmers from across the line. He has stalked his way into the country to the extent of 100,000, which he has paid for a section of land near Spaulding, Man.

Athens, the Greek capital, enjoys bright sunshine on an average of 300 days in the year.

A Matter of Color

College Boy Did Not Get Ahead of Gardener.

An American writer tells a story of his college days. It relates to a negro gardener, with whom the boys used to have considerable sport. One day in spring, Sambo had been burning the college green in order to get rid of the old withered grass. A freshman came along, and, thinking to have some fun, shouted: "Say, there, Sambo, you ought not to burn that stuff."

"Because," replied the freshman, "it'll make that grass as black as you are."

"Well, massa," retorted Sambo, "dat's all right. Dat 'ere grass 'll come up and be as green as you are!"

Nine hundred and ninety-seven cutting tools alone are required in manufacturing a modern rifle. The twist drill is one of the busiest of these. To supply 1,000,000 rifles 94,000,000 holes must be drilled.

WIND ON THE STOMACH

Quickly Relieved

It is a good thing to know just what to do when gas belching starts. One sufferer related the following experience: "A few months ago I ate some green vegetables and some fruit—that was not quite right. It brought on indigestion, hiccoughs, nausea and cramps. I belched gas continually. A neighbor urged me to use 'Nervine.' I took it in hot sweetened water and got quick relief. I will never again be without this valuable remedy. Nervine is a household necessity, large 35c bottles sold everywhere."

Think Airplane is Bird

Frightened Natives Hide in Timber for Hours.

There are even yet in remote parts of the world people who never even heard of an aeroplane. Some of these people live in the little Nicaraguan village of Gigante, where the naval plane NC-6 was forced down by a hurricane while on its flight from San Diego, Cal., to Panama, along with about a dozen other planes, in January.

They thought the NC-6 was a huge bird, an albatross, which had come in search for some unfortunate mariner who had offended it and they hid in the woods for several hours.

Unfit to Live—Must Die

This verdict is rendered a thousand times every week—no corn can live, it must pass out, drop off, if Putnam's Extractor is applied to corns and warts. Use the old reliable "Putnam's" it never fails, 25c at all dealers.

Planes for Mounted Police

Recommendation is Made that Riders of the Plain Should Now Travel By Sky Route.

If plans now projected work out, the old idea of red-coated riders of the plains dashing over the crests of hills on horseback, or mushing along over the lone trails with huskies and sleds is due for a revision. Instead, in the not far distant future the mounted police are due to arrive at outside posts by airplane, thereby being enabled to carry the "white man's law" to the natives in the farthest north, covering in a few hours their patrols which now take as many days.

In the report of the commissioner of the Royal Canadian Mounted Police, tabled in the house by Hon. J. A. Calder, Commissioner Perry says a request has been made to the air board to share in an air service to Fort Norman from Peace River next summer. "The force," says Commissioner Perry, "has placed at the disposal of the board suitable quarters at Peace River and storage and accommodation at all posts down the Mackenzie."

"I anticipate an extension of this service to other points in the north-western territories, which are very remote and difficult of access."

Many pills and purgatives are so hard, are drastic instead of curative. Excessive action is always followed by depression, and knowing this Dr. Hamilton devised his pills of Man-Make and Bismuth so as to mildly increase liver and kidney activity, so as to flush out the system by toning and regulating the bowels. Thus do Dr. Hamilton's Pills eliminate poisons from the body, thus do they restore clearness to the skin, thus do they renew health and strength. To keep your system in healthy good working order, regulate it with Dr. Hamilton's Pills, 25c at all dealers or The Cataract House Co., Montreal.

CASTORIA

For Infants and Children In Use For Over 30 Years

Always bears the Signature of *Dr. J. C. Williams*

Canada Should Not Export Raw Material

No Reason Why Country Cannot Manufacture More at Home.

Some years ago Ontario exported her sawlogs to the United States, where they were sawn into lumber. Quebec exported her pulpwood to American paper mills. During recent years Ontario has saved her logs at home while Quebec has converted her raw pulpwood into paper, with the result that a huge lumber, pulp and paper industry has been built up in this country.

A somewhat similar situation now exists in connection with some of our mineral products. For example, Quebec, which has 85 per cent. of

the world's asbestos, last year exported over \$11,500,000 worth of the raw material, sending it to the United States, Great Britain, Japan, France and other countries. It is estimated that this crude asbestos would be worth \$81,500,000 if it were manufactured at home. In Ontario we used to export our nickel ore in its raw state, but within the last few years we have been refining the ore at home.

There is no reason in the world why we should not manufacture more of our raw materials at home instead of sending them out. Sawlogs, pulpwood, ore and various other commodities should be manufactured by ourselves. In other words, we should build up our basic industries on and upon local products.

—Farmers' Sun.

The Hague is one of the handsomest cities in Holland.

Half of all the lead pencils in the world are made from American-grown cedar.

Rheumatic Pains

Are relieved in a few days by taking 30 drops of Mother's Relief.

After meals and on retiring, it dissolves the lime and acid accumulation in the muscles and joints so these deposits can be expelled, thus relieving pain and soreness. Sells at 50c. per bottle.

Known as "Extract of Roots," contains no dangerous or other strong drugs to kill or make the pain of rheumatism or lumbago, it removes the cause. 50c. a bottle at druggists.

Increased Acreage.

An increased acreage of 500,000 acres is expected to be sown in wheat in the province of Manitoba this spring. Indications are for the early opening of agricultural operations. The season has been especially favorable, and farmers are getting their machinery in order for operations.

All fish eating birds have their beaks slightly curved at the end to prevent their prey slipping away.

RED CROSS

In Peace or in War—The one Universal Emblem of Sacred Motherhood, watching over Mankind. Counting neither cost nor Sacrifice.

Measuring only Service and Devotion.

In time of peace, all over civilization, the Red Cross, drawn by great need, has consecrated itself to the task of active, vigilant, comprehensive service to these high ideals:

THE IMPROVEMENT OF HEALTH.

THE PREVENTION OF DISEASE.

THE MITIGATION OF SUFFERING THROUGHOUT THE WORLD.

In Manitoba, in Saskatchewan, and in Alberta, the Red Cross has undertaken broad and effective programmes that will not only lead to these ends, but will in their progress and accomplishment make our communities better places to live in, brighten our lives, improve our material welfare, and help weld all the people of our prairies into a brotherhood of common sympathies.

And so also in all the other Provinces of our Dominion, and in every land and clime that knows the crimson badge of mercy.

UNIVERSAL MEMBERSHIP ENROLMENT

Western Canada Dates, June 5-11

Red Cross is not asking that you pour gifts of money into her lap at this time—excepting only a nominal membership fee of One Dollar; but it proposes to lay before the citizens of the west its programme and its peace policies, point out the need for its helping hand, and ask every man, woman, and child during that week to subscribe to its creed, enlist in its ranks; to join the Red Cross, enroll his or her name, and become a member of the Society.

And this is also a call to every citizen who can and will, to give their service to the organization, to assist in the work of personally extending to every individual the opportunity and privilege of this membership.

Notify your Local Branch or advise your Provincial Headquarters:

In Alberta: ERIC, GEN. F. P. McDONALD, O'Brien Block, CALGARY, Campaign Director

In Saskatchewan: W. F. KERR, Northern Crown Building, REGINA, Campaign Director

In Manitoba: O. J. SEALE, Red Cross Headquarters, WINNIPEG, Campaign Director

CUTICURA HEALS PRIPPLES

In terrible rash on face which made skin sore and inflamed. Irritated face by scratching and weeping. Could not sleep well and made feel unpleasant. Trouble lasted 3 months before used Cuticura and after using 3 cakes of Soap and 1 box of Ointment was completely healed.

From signed statement of Miss Gladys Neale, R.R. 3, Brussels, Ont.

Cuticura Soap, Ointment and Talcum powder sold everywhere. For purity, skin comfort and skin health often when all else fails.

Keep 25c. Ointment 50c. and 1 lb. Soap throughout the Dominion. Canadian Depot: The Cuticura Soap Co. Ltd., Toronto, Ont.

World Happenings Briefly Told

Italy has decided to electrify 5,000 miles of railways.

Chicago police will be equipped with wireless telephone apparatus.

Several minor earthquakes have occurred in Southeastern China.

R. R. Maitland, well known barrister of Vancouver, B.C., is dead.

During March, 25,694 men were recalled in Detroit shops and factories.

The New York "Dry Squad" will confiscate automobiles carrying liquor in future.

The Toronto branch of the Canadian Authors' Association have held their initial meeting.

Advances made by Canada to Great Britain up to the time of the armistice, totalled \$949,638,368.16.

Average density of the population in the United States is 35.5 persons a square mile of land area, compared with 30.9 in 1910.

California fruits and nuts, with the exception of oranges, lemons and cherries, showed less production in 1920 than in 1919.

At the old rate of exchange, cost of meager living a year in Russia has mounted to \$460,000, according to Lloyd's bank report.

The firm that does the cackling may not have laid the eggs, U.S. government farm experts assert. They advise farmers to use trap nests to pin the cackler down to facts in the way of eggs.

Ontario Great War Veterans are opposing the burial of an unknown Canadian soldier on the grounds that the Dominion was represented in the ceremony which took place at Westminster Abbey.

Bishop Sweeney, head of the Anglican Diocese of Toronto, has issued a letter to the clergy of the Toronto diocese in which he favored prohibiting the importation of liquor into Ontario.

Rumors of the existence of a secret defensive and offensive agreement between France and Great Britain have no foundation in fact. Austen Chamberlain, the Government leader, so announced in the House of Commons.

Will Morning Never Come

DOES this illustration picture your experience?

What is more distressing than being unable to sleep?

Sleeplessness is one of the first and most certain symptoms of exhausted nerves.

This is the warning that you need the assistance of Dr. Chase's Nerve Food to restore vigor to the nerve cells and thereby avoid the development of serious nervous trouble.

By improving the quality of the blood and building up the nervous system this well-known restorative brings new energy and strength to the whole body.

50 cents a box, 5 for \$2.25, all dealers, or Messrs. Drake & Co. Ltd., Toronto.

Dr. Chase's Nerve Food

"Your Teeth"

By Rea Proctor McGee, M.D., D.D.S., Editor of Oral Hygiene.

DO IT NOW.

Copyright, 1921, by Rea Proctor McGee.

It is very encouraging to think that "it is never too late to mend," but when mending is postponed too long there is so much damage done that there is nothing left but the repair.

The best way to avoid damage is to take care in the first place. A child is taught to take care of his baby teeth from infancy, those teeth will do their work and give comfort, health and beauty.

The teeth, the gums, the tongue and the cheeks of every child, should be brushed thoroughly, twice each day.

Every child should have its own brush and a can of good tooth powder or a tube of tooth paste.

The brush must be kept very clean.

When the teeth are to be washed, the brush should be wet in running water and the paste or powder placed on the brush.

Then the chewing surface of the teeth should be thoroughly brushed, both above and below.

Wet the brush again and brush thoroughly the lingual or tongue side of the teeth.

First, scrub them well with a circular movement, then place the brush at the gum margin on each tooth in turn and brush straight to the chewing surface, taking away much of the dirt, cleaning the spaces between the teeth.

Repeat this on the labial, or outside, surface of the teeth, using plenty of water and dentifrice.

After these movements have been completed, brush the inside of the cheeks and lips, then the gums and finally the tongue.

Rinse the mouth with clean water or a mild mouthwash, then wash the tooth brush and hang it up to dry until it is time for the next "tooth bath."

Don't put two or more tooth brushes in one container.

Hang up every brush by itself so that it will not be touched by any other.

Dragged Down by Asthma. The man or woman who is continually subject to asthma is unfitted for his or her life's work. Strength departs, vital energy is taken away and life becomes a dreary existence. And yet this is needless. Dr. J. D. Kellogg's Asthma Remedy has brought a great change to many sufferers. It relieves the restricted air tubes and guards against future trouble. Try it.

Calgary Horse Show

Large Number of Entries Contributed to Success of Event.

A total of eight hundred and fifty-four head of horses were entered in the horse show in Calgary. They included seventy-nine Clydesdales, twenty-three Percherons, eight Shires, fourteen Belgians, three Suffolk Punch, sixty-nine agricultural and heavy draft, eighteen hackneys, seventeen thoroughbreds, seventeen standardbred, nine light grade foals, seventeen "roadsters," one hundred and twenty-one carriages, seven combination, fourteen delivery, thirteen ponies, registered, thirty-three ponies pure-bred or grades, thirty-three polo ponies, sixty-three children's classes, one hundred and sixty-five saddles, one hundred and thirty-one hunters and jumpers.

Minaid's Liniment for Sale Everywhere

How Kronstadt Was Captured.

The offensive developed in generally known. Trotsky's first attack was a failure, but he adopted other methods. By means of sham attacks he allowed part of his troops to run over to the enemy, and when night came he launched his main attack, during which the defenders were attacked from behind by the sham deserters.—New York Tribune.

Looks Likely Enough.

Can Germany pay the indemnity? Mr. Charles M. Schwab, who has been studying conditions in Europe, gives the answer. "Germany," he says, "will recover from the effects of the war much sooner than any other of the European countries involved in it."—Calgary Herald.

Costly Bolshevik Propaganda.

According to information from Bolshevik official sources the Moscow Government spends about 2,000,000 marks in gold monthly on its propaganda in Germany. The expenses for propaganda in England, where about 1,000 Bolshevik agents are working, amount to 24,000 pounds sterling monthly.

Minaid's Liniment For Dandruff.

It Works Wonders On Colds, Catarrh, Bronchitis, Weak Throat

When your throat rattles, your lungs and chest are sore, your throat stuffed with cold—don't fear consumption—use Catarrhose and get well. It clears the throat, stops hacking, relieves tight chest and soreness in the bronchial tubes. To clear away Catarrh of the nose nothing could be better. Catarrhose is Nature's own remedy—it heals and soothes—removes every form of throat, lung and bronchial trouble. Prescribed by many specialists and used by thousands every day. Get the dollar outfit; it lasts two months. Small size, 50c; trial size, 25c; at all dealers or the Catarrhose Co., Montreal.

A Titanic Egg

Ottawa Hen Breaks Record Set Up in Kansas and Regina.

The heroic efforts of a Westboro, Ont., hen to produce a Titanic egg have eclipsed the Kansas and Regina hen recently heard from. Recently, this hen, a White Leghorn, laid an egg which weighed slightly over a quarter of a pound and was eight and a half inches long and six and a half inches in narrow circumference. Both weight and dimensions broke the record made by the Regina hen, whose product was on the wrong side of a quarter of a pound by an eighth, the narrow circumference being only six inches.

NERVOUS PEOPLE NEED A TONIC

Dr. Williams' Pink Pills Enrich the Blood, Thus Increasing Your Nervous Energy.

Nervous people who have not yet developed a disease that can be recognized and treated by the medical profession, often have great trouble in finding relief. Irritation, headache, sleeplessness, nervous heftion. All these discomforts make life miserable, but are endured rather than run a doctor's bill.

Such sufferers should know the danger of such a condition, which, if allowed to persist, may result in a nervous breakdown. In this condition what is needed is rich red blood. As a tonic for the blood and nerves, Dr. Williams' Pink Pills have been used with much success. They have a direct action on the blood, and through it carry to the nerves the elements needed to restore their normal function, at the same time improving the general health. The benefits that follow the use of Dr. Williams' Pink Pills is shown by the case of Mrs. Norman Seifried, West Montrose, Ont., who says: "It would be hard for me to overstate the benefit I have derived from the use of Dr. Williams' Pink Pills. Before I began taking the pills I was very nervous, weak and run down. I could hardly do my housework, and as there is a great deal of work to do about a home on a farm, I felt very much discouraged. One day while reading a newspaper I saw an advertisement of Dr. Williams' Pink Pills and decided to give them a trial. I could notice beneficial effects after taking a box of the pills. I could again do my work with ease, was no longer weak or nervous, slept well at night, and awoke in the morning feeling well and strong. I am happy to say that the pills so greatly benefited me."

Dr. Williams' Pink Pills are sold by all dealers in medicine or will be sent by mail on receipt of 50 cents a box or \$2.50 for six boxes by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Decrease In Tuberculosis.

Deaths from tuberculosis in England and Wales are decreasing rapidly. The figures as given by the ministry of health, are 46,312 in 1919, against 58,073 in 1918.

Internally and Externally it is Good. The crowning property of Dr. Thomas' Electric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pains in the chest, colds, and his kindred ailments it has curative qualities that are unsurpassed. A bottle of it costs little and there is no loss in using it having it on hand.

Twenty thousand women are employed in the fruit and vegetable packing industries in California.

Picturesque Gown For Bridesmaid

By Marie Belmont.

"At present there is a decided tendency toward the period when the bellows skirt held sway. This mode is cleverly interpreted in the bridesmaid's dress of blue radium silk. Its bouffant folds are elaborated with cart-wheels of exquisite lace. The petticoats of tulle and organdie are confined and draped with much lace. This, too, is set in several rows about the little net tucker that gives such a pleasing line to the décolletage. The puffed sleeves are made entirely of lace, while the formal button of pink rosettes is enriched with ribbon streamers. Bright green, rose, periwinkle and honeysuckle are their colors."

"Cold in the Head"

is an acute attack of Nasal Catarrh. Persons who are subject to frequent "colds in the head," and who use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render themselves liable to colds. Repeated attacks of Nasal Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the Mucous Surfaces of the System.

All Druggists and Apothecaries free. 50c per box, any case of catarrh that HALL'S CATARRH MEDICINE will not cure. F. J. Cheney & Co., Toledo, Ohio.

B.C. Forest Fires

During Last Year 390,000 Acres of Timber Were Burned.

Statistics, compiled by the forest branch of the Provincial Government, show that during last year 390,000 acres of timber were burned in British Columbia. This represents a loss of 236,000,000 feet, valued at \$29,000. The damage to young growth is estimated at \$186,000, or a total of \$485,000, as compared with \$93,000 in 1919. Of the season's fire 345, or 28 per cent, were caught and extinguished before they had reached a quarter of an acre in size, and 391, or 31 per cent, were extinguished before they had reached ten acres. Wireless telephones were tried out with satisfactory results.

The Hand of Fellowship.

After all, it would indeed be a barren victory if the co-operation of Great Britain and the United States in arms were to be followed by estrangement and veiled hostility. Fortunately all the signs point to the development of a cordial spirit of comradeship between the two nations, notwithstanding the somewhat formidable list of problems which confront them and the indignant efforts of certain people to arouse that list for ignoble purposes of division and strife.—London Morning Post.

Worms, however generated, are found in the digestive tract, where they set up disturbance detrimental to the health of the child. There can be no comfort for the little ones until the worms are removed. An excellent preparation for this purpose can be had in Miller's Worm Powder. They will immediately destroy the worms and correct the conditions that were favorable to their existence.

Toy Factory at Coast.

The manufacture of toys, from British Columbia materials, will be commenced in Vancouver shortly by a company which was recently incorporated with a half-million dollars capital. It is the intention of the company to confine manufacture to toys and doll houses.

Pleasures are the commas used to punctuate life's story.

W. N. U. 1364

Creator of "Raffles" Dies.

Word has been received of the death on March 22 of E. W. Hornum, the popular English novelist and short story writer, better known as the creator of "Raffles," the amateur crackman.

A Power of its Own.—Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. It uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

A One-Sided Union.

Austria continues to talk of "uniting" with Germany, but when the slogan swallows the plebiscite, we don't usually speak of them as uniting.—Kansas City Times.

Don't Want German Labor

People of Rheims Want to Rebuild Their Own City.

Former inhabitants of Rheims, 70,000 of whom have returned to the ruins of that city, object to any plan of having German laborers rebuild the town and have announced that they want to do the work themselves. M. Louchet, minister of devastated regions, who recently visited Rheims, was told by the mayor of that place that it has suffered damages from war to the extent of £74,000,000.

Germany Has Paid \$500,000,000.

In reply to a question in the House of Commons, Premier Lloyd George stated that the net amount of reparations money received from Germany was about 100,000,000 pounds sterling.

MONEY ORDERS

The fourth session of the Alberta Legislature adjourned last Tuesday. Seventy-eight bills were passed and eighteen withdrawn or dropped.

Two A.P.P. constables unearthed over twenty bottles of Scotch at Hillcrest. It was buried about four feet down and the owner was assessed \$100. and costs.

The Junior Mission Band invite the boys and girls of the Union Sunday school to the play grounds on Saturday, April 23rd. Meet at the mission hall 3 p.m. Pres. Sec. Irene Kalfoury.

Don't forget to clean up your backyard and other premises before this Saturday. Inspection will be made Monday and those who have failed to comply with the order issued by the town elders will be prosecuted.

On June 1st, 1921, over twenty-four thousand enumerators from Halifax to Vancouver will commence to gather the information required by the Dominion Bureau of Statistics in decennial census of Canada.

Rev. Dr. Crumley, of Moose Jaw, has accepted the invitation of the Red Deer Methodist church to become its pastor in June next. Dr. Crumley is one of the most eloquent and outstanding preachers of the Methodist church in Canada.

Some two hundred cases of canned lobster and salmon, valued at about \$4,000, have been seized at North Sydney by officials of the Dominion Fishery department. The shippers, it is claimed, violated certain measures of the Meat and Canned Goods Act, in not labelling the cans or packages.

A consideration of petty circumstances is the bane of great things. Lake Erie is 350 feet higher than Lake Ontario.

"Read 'em and weep," saith the consistent user of advertisement to his conservative competitor.

The "drums" piled up a majority of over 200,000 in the Ontario referendum vote.

We now have a Baseball, Football and Golf Club. What do you say to a Tennis Club to top it off?

A pretty good combination the dry times: A girl named Drink water married a man named Fore-sight.

Miss Freeman, of Pincher Creek, visited her sister Mrs. Senier this week, also taking in the dance on Tuesday night.

"A word to the wise is sufficient" applies to the husband whose wife is telling him something. A wise husband never has to be spoken to twice.

The weather during the past week has not been very favorable for sports, but we live in hopes, and here's hoping it gets "better soon."

The Enterprise has just completed printing the prize list for the Bellevue and district Horticultural and Industrial Club. There are several new classes this year and also an abundance of special prizes, which will certainly attract keen competition in the fair being held at Bellevue on September 6th.

Mrs. Raeburn, of Calgary, will make a special showing of millinery at the F. M. Thompson Co. store on Friday and Saturday of this week. She will have a full display of the latest fashions of spring and summer hats.

Keep an eye on your stationery, etc., and when you get towards the bottom of the pile, call up The Enterprise and order more. Our job department is fully equipped and we can turn out two and three color work to suit your taste. Phone 11.

The schedule committee of the Crows' Nest Pass Baseball League have the schedule ready to submit to the league executive at their next meeting and Blaimore's games at home and away will be published as soon as the executive adopts the schedule.

Sergt. Rossen, the palmist, will be in Blaimore on May 16th. The Nanaimo Herald and Nanaimo Free Press publish very satisfactory accounts of him recently. "The Sergeant," they state, "is an expert palmist, and if you are interested in the subject you could not do better than pay him a visit. He delineates incidents in your past life very correctly, giving you incidents that had completely slipped your memory. Sergt. Rossen, who served in the war, is a son of one of the greatest palmists of the European continent."

Rev. and Mrs. Newman of Hillcrest are visitors in town today.

Rev. Allan of Coleman is a visitor in town today.

Beauty may be skin deep, but it makes humanity stop and look.

Advertising doesn't add to your resources so much as it multiplies them.

Work is progressing on Zak's new building on Victoria street.

Capt. R. G. Mathews, O. B. E., of the Red Cross, was a visitor in town this week.

With the coming of spring, several of the natives have been noticed in their gardens.

The Alberta provincial government are tightening up the liquor act, having passed several resolutions this week.

Ladies, don't envy your neighbor who wears silk stockings. Her hubby may be wearing cotton socks with holes in 'em.

The mines are closed down for this week and consequently several of the single miners have pulled their stakes.

"The Naughty Bride," a real good show is being put on by a stock company at the opera house to-night.

Two Irishmen recently died, aged 119 and 120. The former smoked and the latter did not, so the former's untimely death may be laid to use of the weed.

W. Eddy is auctioning a large sale next Wednesday, when he sells the effects of the Drewry estate near Cowley. There are thirty odd head of registered horses.

Coleman played an exhibition game of baseball with Hillcrest last Wednesday. Hillcrest took the long end of a 5-1 score, but Coleman held them 3-1 up until the last innings. The game was played at Hillcrest.

For the year ended November, 1920, Canadians imported goods valued at \$1,355,582,300, as against \$920,082,927 for the previous year, an increase of purchases from other countries amount to \$425,499,373. Of this total, \$927,564,711 worth, or over sixty-eight per cent, came from the United States. On those imports Canadians paid exchange reaching as high as 17 1/2 per cent. Canadians are still sending their money to the States and paying heavy exchange, in spite of the fact that thousands of Canadian workers, who are willing and able to produce the most of these imports, are out of employment because Canadian factories are running part time or closing down because they lack orders for goods. The unemployed men and women and their families are being supported at the public expense, involving an additional burden to tax payers. If Canadians united in a resolve to buy Canadian-made goods as far as possible, instead of imported goods, most of the problems of trade depression and unemployment would be quickly solved.

He's Right

Jerry, who had worked among horses all his life, sat in the livery barn reading The Herald last night. "Well," he said, "I see them English miners have their regular attack of spring halt."—Lethbridge Herald.

A little ditty entitled, "Where Did That One Go."
